

# How do I access and share my child's official NJ immunization record?

Use Docket® as needed for **back-to-school** enrollment, **summer camp**, **sports**, and more.

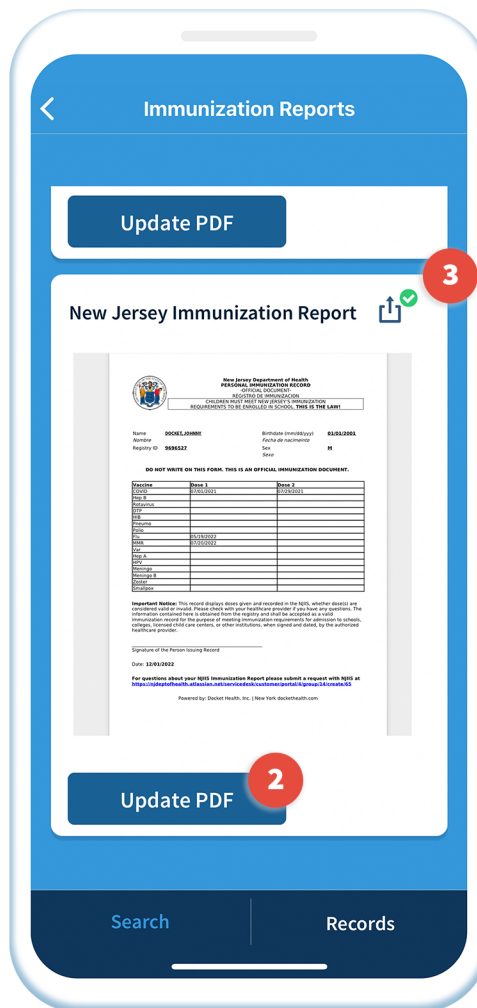

## 1. Tap the PDF button.

The share button appears next to the individual's name on the Immunization Records screen. It is represented as a box with an arrow.

## 2. Download your PDF.

Select the button labeled "Download PDF."

**Note:** This button will change to "Update PDF" after your download is complete.

## 3. Share your PDF.

Select the check mark in the green circle that appears next to the share icon after your PDF download is complete. You can share immunization record PDFs using standard share functionality like email or text.
