Temperature Log Help Document for
NJIIS Providers

Table of Contents

Add Cold Storage Unit 3
Edit Cold Storage Unit 4
Record Temperatures 4
View Temperature Log 6
Delete Temperature Log 8

NJIS has been enhanced to provide the functionality to keep the “Temperature Log” on-line.

To enter the unit’s temperature, first click on “Temperature Log” link under the “Temperature Log” title on the left navigation bar.

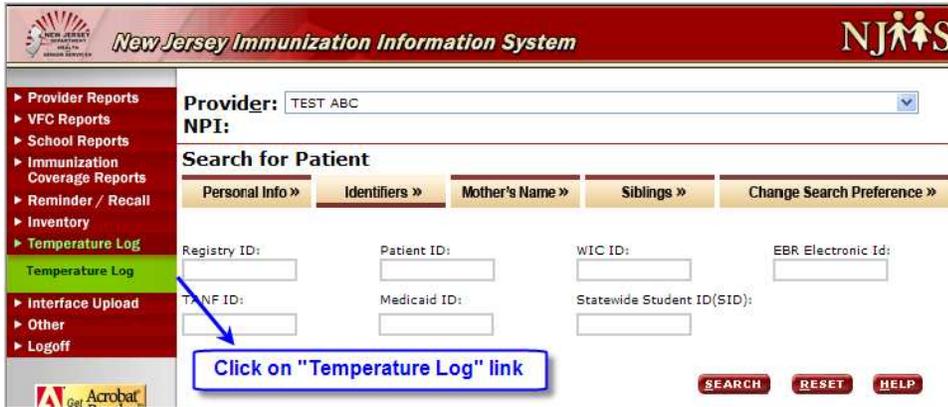

Figure 1: Temperature Log Link

System will display the “Manage Cold Storage Unit” page.

Add Cold Storage Unit

Before you can enter the daily temperature log, you need to create a “Cold Storage Unit” in the system.

Click on “Add Unit” button from the “Manage Cold Storage Unit” page.

Figure 2: Manage Cold Storage Unit page

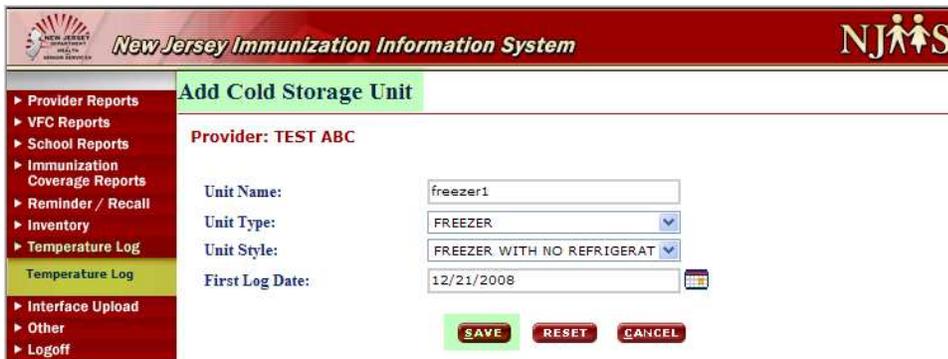

Figure 3: Add Cold Storage Unit page

Drop down values to choose from →

Unit Type	Unit Style
Freezer	Countertop
Refrigerator	Household
	Refrigerator with No Freezer
	Freezer with No Refrigerator
	Scientific Quality

Enter necessary information and click on “Save” button, which will put you back on the “Manage Cold Storage Unit” page.

Edit Cold Storage Unit

Select the Unit and click on “Edit Unit” button from the “Manage Cold Storage Unit” page.

Figure 4: Edit Cold Storage Unit page

You don’t need to create a new unit each month and you don’t need to put final log date each month to submit. Enter the date in “Unit Deactivation Date” only if this unit is permanently out of service.

Record Temperatures

You can enter temperature logs only after the first log date and not before that date.

Select the Unit and click on “Record Temperatures” button from the “Manage Cold Storage Unit” page, which will put you on the “Enter Record Temperatures” page.

Each time system will display either first half or the second half of the month to enter the temperatures.

SAVE AS DRAFT SAVE AND SUBMIT RESET CANCEL

Figure 6: Enter Recorded Temperatures page for Refrigerator

As soon as you select "Open" from the "Office Status" drop down values and enter the "Target Area Range", system will gray out this line.

As soon as you select "Closed" or "Maintenance" from the "Office Status" drop down values, you will not be able to enter any temperature and the whole line will be disabled.

You can also type the temperature number manually in "Too Cold" or "Too Warm" text boxes if it is outside the range.

You can enter daily temperature and perform "Save As Draft" until you are ready to submit the temperature log for the whole period. System will stay on the same page.

You have to provide temperature log for **ALL** the dates in the period before you can perform "Save and Submit", which will put you back on the "Manage Cold Storage Unit" page.

View Temperature Log

You can view temperature log history by selecting the unit name and perform "View Log" from the "Manage Cold Storage Unit" page.

Delete Temperature Log

You can delete temperature logs only if it is not submitted yet.

Select the Unit and click on “Record Temperatures” button from the “Manage Cold Storage Unit” page, which will put you on the “Enter Record Temperatures” page, which will allow you to perform “Delete Log”.

After the confirmation, you will be able to delete these logs. At this point, system will put you back on the “Manage Cold Storage Unit” page and you can re-enter the logs again.
